

CAPITAL FORMS

Deslauriers' Capital Forms are available in standard diameters from 36" and up and with column sizes from 16" and up.

Standard Capitals are manufactured on a 1:1 slope. A standard 6" column extension is included to allow attaching to existing column or to be bolted to column forms for monolithic pours.

To receive a quote: select capital diameter and specify column diameter in order form. Capital forms are available in special sizes.
